

OFFICIAL PUBLICATION OF
THE AMERICAN SOCIETY FOR
AESTHETIC PLASTIC SURGERY

From *Aesthetic Surgery Journal* Thank You to Our Reviewers

The Editors of *Aesthetic Surgery Journal*, on behalf of The American Society for Aesthetic Plastic Surgery and the prestigious International Affiliate Societies who have adopted *ASJ* as their official English-language journal, wish to thank our many Reviewers for their significant contributions.

The peer-review process is the cornerstone of our Journal. For this process to function properly requires the active participation of individuals with exceptional expertise in aesthetic surgery and related subjects. Not only is it important that reviewers be experts in their field, but they also must possess the analytical skills and patience to carefully evaluate the scientific integrity, thoroughness, and appropriateness of every manuscript presented for review.

It is the high editorial standards maintained by our Reviewers that have helped make *ASJ* the leading scientific and clinical resource for practitioners of aesthetic surgery throughout the world. Our sincere thanks to the following individuals:

David L. Abramson, MD
William P. Adams, Jr., MD
Amy Alderman, MD
Al Aly, MD
Stephan Baker, MD
Alfonso Barrera, MD
Fritz E. Barton, Jr., MD
Lawrence S. Bass, MD
